GROUP PICTURE

KRYSTIAN ARKADIUSZ HOLUBEK

Host Organization

Volkswagen Sevilla Wagen

Tutor's name

Francisco Mellado

1. Description of the host organization

Sevilla Wagen, SA integrated into the Volkswagen Group Retail Spain SL company group, conducts marketing products and services of the Volkswagen brand to Seville and its geographical environment.

The quality of Volkswagen's products and services, evolving along with brand, and customer satisfaction, is the goal for the company's management priority.

2. Main responsibilities & tasks carried out during the work placement

- Locating defects in parts and components of a vehicle
- Selection and use of measurement instruments and diagnostic equipment in vehicles
- Performing basic service and repair activities related to car servicing, i.e.: oil and filter change, defective parts replacement, washing of engine and, other car components
- Car body repairing i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembly and disassembly of car body components and chassis
- Performing maintenance and repairs in accordance with automotive vehicles manufacturer's technology

3. Tutor's final evaluation

Krystian has successfully completed his work placement and received very positive feedback from his supervisors. His adaptation to the working environment was excellent. Krystian was also considered an ambitious and motivated person, who displays a genuine interest in gaining new skills.

4. Participant's opinion about his/her personal & professional development

At my workplace I really enjoyed the atmosphere; people there are very helpful, friendly and nice. Certainly, I gained a lot of new useful skills. With no doubt, the professional experience that I acquired in Spain will help me to get a great job in the future.

4. Participant's opinion about his/her personal & professional development

I was assigned a lot of different tasks, so that I could gain new skills and professional experience. I learned how to do different repairs such as oil, filters, tire, engine, and change. As well as how to use the software for diagnostics – ODIS by Audi and others and I had the opportunity to drive an electric car. There was a great atmosphere, very nice people, helpful and friendly. I really enjoyed working there.

MARCIN ANTONIK

Host Organization

VOLVO

Tutor's name

Francisco Núñez

1. Description of the host organization

Volvo Codimotor SL – sells brand new Volvo vehicles, pre-owned as well as second-hand vehicles. They also offer workshop services and car parts sale. The company has 3 lines of business: sales of Volvo cars, all inclusive service of Volvo cars, and sale of car accessories and spare car parts.

2. Main responsibilities & tasks carried out during the work placement

- Locating defects in parts and components of a vehicle
- Selection and use of measurement instruments and diagnostic equipment in vehicles
- Performing basic service and repair activities related to car servicing, i.e.: oil and filter change, defective parts replacement, washing of engine and, other car components
- Car body repairing i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembly and disassembly of car body components and chassis
- Performing maintenance and repairs in accordance with automotive vehicles manufacturer's technology

3. Tutor's final evaluation

Marcin proved to always be willing to learn new things; he is a very motivated person and his adaptation to the working environment was excellent. In addition, he has acquired new skills in reference with inspection, maintenance, and vehicle reparation.

4. Participant's opinion about his/her personal & professional development

I did my work placement at Volvo car service. I learned many useful things like oil and filter change. I am glad that I could carry out my vocational training in Spain, because I gained a lot of new useful skills related to my future profession. I could work in a big company and I gained more self confidence.

3. Tutor's final evaluation

At Volvo - Krzysztof showed great professionalism, impeccable appearance, and behavior. He proved always to be willing to learn new things and to help others. In addition, he has acquired new skills in reference with inspection, maintenance, and vehicle repairation.

4. Participant's opinion about his/her personal & professional development

During my vocational training in Sevilla I did my work placement at Volvo car service. My work colleagues were nice and helpful. I learned a lot from them, like changing gearbox, lights, and also working in a team. I performed several tasks related to Volvo car service as well as assisting in difficult repairs. I also became more confident.

JAROSŁAW KRZYSZTOF ROIK

Host Organization

AUTOMOTOR CALONGE

Tutor's name

Javier A. Núñez García

1. Description of the host organization

Automotor Calonge is a big car workshop. Among its many services it offers its customers maintenance services, general mechanics, car electronics, vehicle diagnosis, suspension system inspection, as well as car body repairing and painting service.

2. Main responsibilities & tasks carried out during the work placement

- Locating defects in parts and components of a vehicle
- Selection and use of measurement instruments and diagnostic equipment in vehicles
- Performing basic service and repair activities related to car servicing, i.e.: oil and filter change, defective parts replacement, washing of engine and, other car components
- Car body repairing i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembly and disassembly of car body components and chassis
- Performing maintenance and repairs in accordance with automotive vehicles manufacturer's technology

3. Tutor's final evaluation

Jarosław Roik has successfully completed his work placement and received very positive feedback from his supervisor, who was very impressed with his professional skills. During his vocational training Jarosław has carried out tasks in the field of car electronic, disassembly and assembly of car parts. He was never late, had positive attitude and interest in the tasks he was delivering. He is the best trainee we ever had.

4. Participant's opinion about his/her personal & professional development

I learned how to do different repairs such oil, filters, and tires change, repair suspension and many others things. In Automotor Calonge there was a great atmosphere, very nice people, helpful and friendly. I really enjoyed working there. I gained the ability to repair various brands of cars and I developed a lot of new skills like the ability to work not only individually but also in a team.

1. Description of the host organization

The Automoción Jofer Chevrolet workshop works on base of the dealership agreement with Chevrolet. The fundamental services which are provided by The Automoción Jofer Chevrolet are: car workshop, paint and body workshop, fast car body repairs.

2. Main responsibilities & tasks carried out during the work placement

- Locating defects in parts and components of a vehicle
- Selection and use of measurement instruments and diagnostic equipment in vehicles
- Performing basic service and repair activities related to car servicing, i.e.: oil and filter change, defective parts replacement, washing of engine and, other car components
- Car body repairing i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembly and disassembly of car body components and chassis
- Performing maintenance and repairs in accordance with automotive vehicles manufacturer's technology

3. Tutor's final evaluation

Patryk and Dawid, who worked at the same company, have been assessed very high by their supervisor who had nothing but complements for them. He was especially impressed by their willingness and readiness to help. The trainees have always helped with everything on their own initiative. Although, they don't speak Spanish fluently, they were able to communicate comprehensively with co-workers and understand their instructions.

4. Participant's opinion about his/her personal & professional development

My impressions on my work placement are very positive. I learned many useful things like changing gearbox and repairing flat tires, and I met new people. I gained a lot of new useful skills. Also, Erasmus + program helped me acquire more self-confidence, gain new experience and learn a new language.

TUTORING & MONITORING

1.

At the beginning of each project, the members of euroMind assist students in their working placements in order to facilitate the introductory period. Later on, throughout the project we always offer our assistance. Trainees and their guardians are welcomed to direct their questions or doubts to the team. euroMind team is always ready to help students and to solve the appearing problems. During the project, euroMind is also open to any suggestions and exert itself to make trainees' visit and work satisfying, comfortable and enjoyable.

To make sure that the trainees obtained the promised work experience, euroMind provides them with the on-going tutoring & monitoring service. Monitoring is done on a regular basis in their work placements, evaluating their work performance, and their achievements.

2.

EuroMind takes good care of successful communication between companies and trainees. Each evaluation of work is aimed at improving the quality of cooperation. Each party is thoroughly checked and assessed and the necessary improvements are introduced. Moreover, euroMind mediates in this supervisor-trainee collaboration by translating and solving language-connected complicated matters.

The euroMind is always ready to react immediately in emergency, though unlikely, situation.

CERTIFICATION

1.

To validate the acquired skills, the trainees, at the end of their stay, received complete proof of their participation in the project by means of several methods of recognition:

- Work Placement Certificate
- Europass Mobility Certificate
- Spanish Course Certificate

CULTURAL & LINGUISTIC PREPARATION

1. Spanish course: teaching method & participants' outcomes

The group was given very intensive Spanish lessons with **Natalia** and **Irmina**, their Spanish teachers. Natalia's and Irmina's teaching methods were very effective as they made learning fun through playing games and creating an enjoyable atmosphere in the class. Our Spanish classes can be described by 2 words: dynamic and practical! We use an interactive method of teaching based on learning by practicing. This means that grammar is covered as much as possible by using practical situations, so speaking and actively using the language is central. After 19 hours of hard learning the students had a written an exam.

2. Cultural activities

SEVILLE TOUR

Seville is Spain's beautiful city according to most people. There is an amazing list of sights worth to visit. Seville is a colorful and vivid city, which can be distinguished by a mixture of Roman reminiscences and Moorish traditions. During the Seville tour the participants are shown many Spanish symbols and marvelous monuments, such as The Cathedral of Saint Mary of the See, The Royal Tobacco Factory, General Archive of the Indies, Plaza España, (the Spain Square) in Maria Luisa Park and Torre del Oro (Gold Tower).

VISIT TO THE ROYAL BULLRING

The Royal Bullring of Seville is one of the cardinal temples in the history of tauromachy, the most beautiful example of bullfighting architecture and a primordial setting in the evolution of the Bullfighting Festival. During the visit to the Bullfighting Museum, the participants learned about one of the most popular Spanish traditions, that also happens to be quite controversial throughout the world. They have a unique opportunity to ask questions and to form their own opinion.

OBSERVATORY VISIT TO TUSSAM AND VOLKSWAGEN COMPANY

Guided tours of the facilities Volkswagen Sevilla Wagen and TUSSAM describe the function of the cars, inflows rating, setbacks, traffic calming strategies in Tussam and much more on transportation in Sevilla and electric cars (Volkswagen).

3. Andalusian cities & places visited during the programme

TRIP TO CÓRDOBA

Córdoba is a very interesting city. It is worth noticing that in the 10th century it was considered as the most populous city in the world and also the centre of education with many libraries, medical schools and universities. Córdoba was the intellectual centre of Europe without any religious prejudices as it hosted predominant Muslim society but also Christian and Jewish minorities. This cultural blend is visible even today on the city's architecture with its dominant Great Mosque of Córdoba that used to be an Islamic mosque but later converted into a Catholic Christian cathedral. The trainees could visit this unique monument and see the famous columns.

TRIP TO CÁDIZ

The oldest continuously inhabited city situated in south-western Spain and a typical Andalusian city with a wealth of attractive vistas and well-preserved historical landmarks. Its Old Town is commonly known for its various antique quarters (barrios) and large squares (plazas) to chill out. While the Old City's street plan consists of narrow winding alleys connecting large plazas, newer areas of Cadiz typically have wide avenues and more modern buildings. There is also the harbour, the beach, and the sea which certainly gave the trainees a chance to experience a proper Spanish day!

SUMMARY OF THE PROJECT

1. Provide a brief summary of the main aims, content and planned outcomes of your project, including an assessment of how well the initial aims and the final outcomes matched.

16 Polish trainees were obtaining experience, broadening their professional knowledge and improving their skills for 4 weeks in September/October 2015 in car mechanics sector.

According to the feedback from the trainees and their employers, we can claim that the project was excellent and met expectations from all the participating parties.

euroMind team did their best to ensure good communication among the sending institution, trainees and receiving organizations at every stage of the project, which contributed to the fact that this project provided an enriching experience to all the participants.

The trainees had a chance to see the way of working in Spain, get to know a lot of useful information, gain new professional experience to be implemented in their job back home, and also enjoyed their stay via various socio-cultural activities the euroMind team prepared for them.

euroMind team did their best in order to deliver the best professional and cultural experiences to the trainees of the project, always being ready to help, give advice, and solve any problems or doubts 24/7.

The trainees were fully satisfied with their work placements. They gained much needed professional experience abroad, which is highly appreciated and sometimes even specifically asked for by today's employers.

We have no doubt that our trainees will use their new knowledge and experience at their current work in Poland, or to increase their chances in the labour market and dazzle their future potential employers.

Furthermore, the trainees learned the basics of the Spanish language, were able to work in a multi-cultural environment, and proved they had the ability to work individually as well as in a team.

euroMind team was extremely satisfied with the trainees' involvement in the project and personal interest in whatever they participated in.
